Overview

[Anthology](#)

Higher education institutions around the globe are delivering on their mission by leveraging Anthology's enterprise software and services. More than 1,200 institutions in over 30 countries partner with Anthology to transform academic delivery, student success and operational efficiency through innovative cloud-based solutions, including Anthology Student Information and Enterprise Resources.

Established in 1988, the company has aligned technology with the evolving needs of colleges and universities for over three decades.
