

# Virtual/Fractional CIO Services

Last Modified on 03/19/2021 8:55 pm EDT

## Provider: [Edge](#)

A virtual/fractional CIO can be staffed by Edge to serve as a member of an institution's IT leadership team, ensuring that technology is leveraged efficiently and effectively to support the institution's mission and vision. Services can be consumed virtually or on-site, and on a project-based, interim, or full time basis.

### Typical Use Cases

- An institution has recently lost the services of their full-time CIO and requires an interim resource to fill the gap.
- An institution is planning to undergo a complicated IT project such as a cloud or ERP migration, but current full-time staff don't have the cycles required to lead the project.
- An institution would like to have an outside executive-level IT resource engage and evaluate current IT processes, programs, and infrastructure.

### To Inquire

For more information, contact: [info@njedge.net](mailto:info@njedge.net)

### Method of Procurement

- Direct from Edge via for New Jersey public entities via Shared Services
-
