

# Mobile Application for Student Engagement

Last Modified on 03/23/2021 7:41 pm EDT

## Provider: [Ready Education](#)

A mobile application for student engagement enables an institution to more deeply engage with the student community. The application integrates various streams of student data into one app, providing greater ease of use for the student. It also enables the institution to send SIS/LMS-triggered nudges and other forms of engagement with the goal of boosting student retention.

## Typical Use Cases

- An institution wishes to gain the ability to send nudges to students
- An institution seeks to develop a central hub for the student population to access grades, courses, events, clubs, and other information for greater ease of use of student systems.
