

Virtualization Solutions (VMware)

Last Modified on 03/23/2021 7:32 pm EDT

Provider: [VMware](#) via [Carahsoft](#)

Virtualization technology for solutions including end user computing, cloud computing, software-defined data center, virtualized servers and network infrastructure, network security, storage, hyperconverged infrastructures, and more.

Typical Use Cases

- An organization wishes to reduce their data center footprint, and uses virtualization technology to consolidate servers on reduced physical infrastructure.
- An institution wishes to improve security for their virtualized infrastructure and applications through micro-segmentation.
- New curriculum or lab delivery models require virtualized desktops or applications delivered anywhere, anytime.
