Nutanix Hyperconverged Infrastructure (Nutanix via Carahsoft)

Last Modified on 03/23/2021 7:33 pm EDT

Provider: Nutanix

Hyper-converged infrastructure (HCI) combines common datacenter hardware using locally attached storage resources with intelligent software to create flexible building blocks that replace legacy infrastructure consisting of separate servers, storage networks, and storage arrays. Benefits include lower TCO, increased performance, and greater productivity within IT teams.

Key Benefits of This Agreement

This agreement provides many important benefits. Highlights include:

- 10% Discount on all Nutanix hardware, software and support
