Zero Client and Thin Clients for Virtual Desktop Infrastructure (10Zig)

Last Modified on 03/23/2021 7:34 pm EDT

Provider: 10Zig

Thin Clients

10ZiG Technology offers a wide selection of powerful, reliable and affordable thin clients. Our devices are constructed to provide the best performance possible in Virtual Desktop Infrastructure and Server-Based Applications/Desktops for hosted and cloud environments. 10ZiG Thin Clients are optimized for the latest desktop technologies including VMware, Citrix and Microsoft and harness the power of protocols such as PCoIP, Blast Extreme, HDX, HDX Premium, HDX 3D Pro and RDP.

Zero Clients

10ZiG Zero Clients deliver a powerful, secure and easy to manage endpoint device for Virtualized Desktops. 10Zig Zero Clients harness the power of VMware and Citrix, supporting the latest protocols including Blast Extreme, PCoIP & HDX to deliver a seamless desktop virtualization experience. With 10ZiG NOS™, you will experience lightning-fast boot up times, extremely low power consumption and simple and intuitive configuration locally or via the Cloud with The 10ZiG Manager™ – our free endpoint management software. The 10ZiG Zero Client lineup provides a solution for all user types, from task workers up through the most demanding power users.
