Provider: [Zscaler Inc](#) via [Carahsoft](#)

The [Zscaler Cloud Security Platform](#) is a service built from the ground up for performance and scalability. Based on the SASE framework, the Zscaler globally distributed architecture delivers platform services at the edge so that users are always a short hop to their applications. And, by peering with hundreds of partners in major internet exchanges around the world, Zscaler ensures optimal performance and reliability for your users.

Because Zscaler is delivered as a service from the cloud, there is no hardware to buy or manage, and it is always up to date. The Zscaler platform includes the following Zscaler products:

- [Zscaler Internet Access](#)
- [Zscaler Private Access](#)
- [Zscaler B2B](#)
