

Class Virtual Learning Platform

Last Modified on 02/06/2022 5:34 pm EST

Solution: Class Virtual Learning Platform

Provider: [Class Technologies, Inc.](#)

Class Technologies reimagines the virtual learning platform by integrating Teaching and Learning tools with Zoom, the most stable and prolific audio and video streaming service available.

Using Class, instructors can deploy quizzes, assignments, polls, surveys and automatically calculate grades for student submissions. Class Technologies also integrates with Learning Management Systems to provide automatic attendance taking, focus students on LMS content or proctor exams and quizzes.

When a virtual classroom is launched, the Class platform automatically aggregates real-time analytics from a classroom to help instructors better engage with students and provide for an enhanced student experience.
