Service Descriptions

Anthology Blackboard LMS

Blackboard is a market leading LMS designed by educators, for educators. A fully SaaS based solution, Blackboard offers a complete range of capabilities to support the needs of modern learners.

Anthology Ally for LMS

Anthology Ally for LMS enhances the accessibility and inclusivity of digital course content across diverse educational institutions. This tool dynamically improves digital content accessibility, ensuring all learners, regardless of ability, have equitable access to educational resources.

Anthology Ally for Web

Anthology Ally helps build inclusive environments and makes digital content more accessible for all, working seamlessly across any public-facing website. Anthology Ally for websites helps organizations improve website usability by making it quick and easy for visitors to find the information they need and enabling content editors to improve accessibility, which leads to better user experiences and fulfills legal requirements.

Course Catalog (TDM)

Course Catalog is a premium offering from Blackboard designed to strengthen non-credit course offerings and optimize learner engagement. By leveraging the existing Blackboard infrastructure, institutions can offer a seamless, self-service learner journey — from course selection to enrollment, payment, and certification — without the need for additional integrations, licenses, or third-party providers.

Anthology Evaluate

Anthology Course Evaluations is designed to enhance teaching and learning by providing a robust platform for collecting and analyzing course feedback. This solution empowers higher education institutions to systematically gather student evaluations on course effectiveness, instructor performance, and overall learning experiences.

Anthology Adopt

Anthology Adopt powered by Pendo is designed to enhance technology adoption and user engagement in Blackboard for higher education institutions by providing personalized in-app guidance and detailed analytics of user behavior. This keeps all users on track and helps institutions get the most from Blackboard.

Anthology Milestone

Anthology Milestone is designed to streamline career development and track student progress and achievements towards career readiness. This solution offers a comprehensive platform for higher education institutions to guide students through their career journey, from initial goal setting to achieving key milestones.

Anthology Illuminate

Anthology Illuminate is a powerful SaaS-based data warehouse and analytics platform designed for higher education institutions. Included as a standard offering for Anthology Learn SaaS clients, Illuminate consolidates data from across the Anthology SaaS product suite into a reporting-optimized model.

Anthology Engage

Anthology Engage is designed to enhance student engagement and retention by fostering a connected and involved campus community. This solution supports higher education institutions in creating personalized communication strategies, organizing campus activities, and encouraging student participation.

Anthology Outcomes

Anthology Outcomes is designed to streamline assessment management processes, enhancing the effectiveness of educational programs and institutional performance. This solution empowers higher education institutions to efficiently manage and measure learning outcomes, ensuring continuous improvement and accountability.

Anthology Program Review

Anthology Program Review is designed to streamline the program review and self-study processes, facilitating continuous improvement and ensuring accreditation success for higher education institutions. This solution offers comprehensive tools to manage and document program reviews efficiently, enabling institutions to align their programs with accreditation standards and institutional goals.

Anthology Planning

Anthology Planning is designed to enhance strategic planning and assessment management for higher education institutions, ensuring alignment with institutional goals and continuous improvement. This solution provides comprehensive tools for creating, managing, and tracking strategic plans, program assessments, and accreditation requirements.

Anthology Accreditation

Anthology Accreditation is designed to streamline the accreditation and self-study processes for higher education institutions, ensuring continuous improvement and compliance with accreditation standards. This solution provides a comprehensive platform for managing the entire accreditation lifecycle, from self-study preparation to report submission and review.

Anthology Collective Review

Anthology Collective Review is designed to facilitate collaborative assessment and peer review processes, enhancing the quality and effectiveness of academic programs in higher education institutions. This solution provides a comprehensive platform for managing and streamlining peer review workflows, ensuring thorough and consistent evaluations.

Anthology Portfolio

Anthology Portfolio is designed to enable personalized learning and skill tracking through comprehensive digital portfolios for higher education students. This solution allows students to document their academic journey, showcase their achievements, and reflect on their learning experiences.

Anthology Raise

Anthology Raise is a dynamic solution designed to enhance alumni relations and optimize fundraising efforts for educational institutions. This platform integrates advanced outreach tools with robust donation management capabilities to help institutions build stronger connections with their alumni and drive effective fundraising campaigns.
