Overview

NJEdge.Net, Inc. ("Edge") and the EdgeMarket Cooperative Pricing System ("EdgeMarket") are jointly soliciting proposals from qualified vendors to provide a comprehensive, interoperable, and cost-effective Public Safety Operations Platform (PSOP) (the "Solution"). The purpose of this RFP is to procure a platform that enables municipal public safety agencies and campus public safety organizations to improve response, coordination, accountability, and community trust through modern CAD, RMS, digital evidence, situational awareness/RTCC, mobile operations, and mass notification—delivered as cloud-first with on-premises or hybrid options where required. The Solution must comply with applicable security and reporting standards (e.g., CJIS, NIBRS, HIPAA), support NG9-1-1 integrations, and offer open, well-documented APIs for multi-agency interoperability and future extensibility.

Edge/EdgeMarket anticipates awarding one or more cooperative master purchasing agreements that eligible participants may use, at their option and subject to their local laws and policies
