Overview

This is a supplemental bid related to [RFP - IT Professional Services #1 \(2023\)](#) and [RFP - IT Professional Services #2 \(2023\)](#).

The purpose of this RFP is to procure a variety of IT Professional Services on an Indefinite Delivery Indefinite Quantity (IDIQ) (or "Open Purchase Order") basis to support the needs of, Edge, Edge Members, and EdgeMarket Participants in the following Service Categories:

- Data Center Support, Network Engineering (LAN), Network Operations (NetOps), Installation, and configuration
- Cloud Migration Services
- Master Data Management (MDM) and Data Warehouse Services
- Physical Learning Space Installation and Configuration
- Software System Selection Services
- Technical Project Manager
- ERP and CRM Implementation, Upgrades, and Integrations
- Other Implementations, Upgrades, and Integrations

Bidders responding to this procurement may elect to respond to the entire scope of services, or only certain categories.

The strategic goal of this procurement is to provide Members and Participants with streamlined access to services that complement and supplement the array of professional services provided by Edge.

Integrated Solution Components

This RFP differs from the previous two through the addition of an Integrated Solution Components section.

The intent of the Integrated Solution Components section is to expand the scope of the IT Professional Services Master Agreement to include equipment, materials, and software components only when directly required to fulfill the contracted services.

EdgeMarket seeks to enable complete solution delivery—where a service provider may supply, install, configure, and support necessary hardware or software elements—without creating a general reseller channel or product-only procurement vehicle.
