

RightSpot™ Public Safety Operations Platform

Last Modified on 05/12/2026 1:00 am EDT

Solution: RightSpot™ Public Safety Operations Platform (PSOP)

Provider: [Right Angle Solutions, Inc. \(RAS\)](#)

Right Angle Solutions / RightSpot™ Public Safety Operations Platform

Right Angle Solutions, Inc. (RAS) is a New Jersey-based, certified Minority and Small Business Enterprise (MBE/SBE) with more than 22 years of experience delivering technology modernization solutions to government, education, healthcare, and transportation agencies across the United States. As an EdgeMarket contract awardee under the Public Safety Operations Platform (PSOP) vehicle, RAS brings a comprehensive, modular, and cloud-native technology framework purpose-built to help state agencies, municipalities, higher education institutions, and public safety organizations modernize operations, strengthen interoperability, and make faster, data-informed decisions.

At the center of RAS's offering is RightSpot™, the company's proprietary cloud-native, mobile-enabled platform for real-time visibility, geospatial tracking, field coordination, and communication. Originally developed for student transportation safety, and proven in live deployments with New Jersey school districts, RightSpot™ is built on the same secure, interoperable, and human-centered design principles that underpin RAS's full PSOP solution suite. For EdgeMarket members, it represents a ready-to-deploy innovation that addresses mobility, communication, and field operations without the overhead of custom development.

RAS's PSOP solution is hosted within FedRAMP High-authorized Microsoft Azure Government and AWS GovCloud environments and is architected to meet CJIS, HIPAA, and NIST 800-53 compliance requirements. Member agencies can adopt individual capabilities independently or as an integrated ecosystem, scaling modernization at their own pace without disrupting existing operations.

About Right Angle Solutions

Right Angle Solutions was founded in 2003 and is headquartered in New Brunswick, New Jersey, with a regional office in New York. The firm has delivered more than 150 successful modernization and data transformation projects for 50+ clients across multiple states, including statewide and regional programs for transportation authorities, county governments, higher education institutions, and nonprofits. RAS holds certifications as a Minority Business Enterprise (MBE), Small Business Enterprise (SBE), and Disadvantaged Business Enterprise (DBE), and is a Microsoft Certified Partner specializing in Azure Government Cloud and Dynamics 365.

Right Angle Solutions highlights:

- Certified MBE/SBE/DBE with 22+ years of public-sector technology delivery
- 150+ successful implementations across government, education, healthcare, and transportation
- Microsoft Certified Partner for Azure Government Cloud and Dynamics 365
- Solutions deployed in FedRAMP-authorized environments aligned with CJIS, HIPAA, and NIST 800-53
- Proprietary RightSpot™ platform with proven school district deployments in New Jersey
- Section 508 / WCAG 2.2-AA compliant design across all deliverables
- Team of 50+ specialists including PMP®, ScrumMaster®, and Azure Security-certified professionals

About the RightSpot™ Platform and PSOP Solution Suite

RAS is awarded across eight PSOP categories, offering EdgeMarket members a modular, interoperable technology framework that can be adopted in whole or in part. The solution architecture is anchored around four strategic pillars: an integrated data ecosystem connecting CAD, RMS, GIS, NG9-1-1, and dispatch systems; cloud-native scalability with 99.9%

uptime and U.S.-based data residency; analytics, AI, and intelligence leveraging Azure Synapse, Power BI, and responsible AI models; and secure, sustainable design built for continuous compliance under NIST 800-53, SOC 2, and CJIS frameworks.

RightSpot™, RAS's flagship proprietary platform, provides real-time GPS visibility, intelligent field notifications, geospatial analytics, and integration-ready APIs, all in a cloud-native, mobile-enabled environment. Its track record includes eliminating dismissal errors for the Weehawken School District, achieving 100% CDC compliance for Beloved Community Charter School during the COVID-19 pandemic, and supporting student safety for 1,200+ students across New Jersey.

RightSpot™ and PSOP solution highlights:

- **Eight PSOP categories covered:** mobile and field operations, analytics and responsible AI, cloud architecture and hosting, interoperability and APIs, data management and portability, usability and accessibility, artificial intelligence, and the proprietary RightSpot™ platform
- **Real-time geospatial tracking and field coordination** via RightSpot™, deployable for transportation, public safety, and municipal operations
- **Open Integration Framework (OIF)** with NIEM- and NENA-compliant APIs for CAD, RMS, GIS, and 911 systems with no vendor lock-in
- **Responsible AI** with bias detection, explainability dashboards, and predictive public safety analytics built into every model
- **Ease of Adoption Model:** 4–6 week rapid start packages, pre-built dashboards and workflow templates, and an on-demand learning portal
- **Time & Materials pricing:** members pay only for services consumed, with no hidden costs or long procurement cycles
- **Innovation-as-a-Service:** quarterly roadmap reviews, sandbox environments, and a Joint Innovation Board co-governed with EdgeMarket
- **Proven client results:** 70% reduction in parent call volume (Weehawken School District), 35% reduction in system maintenance costs (Institute of International Education), 40% reduction in review cycle times (County of Morris, NJ)

EdgeMarket Contract Identification Number (ECIN)

The ECIN for this contract is: **269EMCPS-25-004-EM-RANG**

When you utilize this agreement, Please include the ECIN on all purchase orders for goods or services purchased pursuant to this contract vehicle, and ensure that the vendor includes the ECIN on relevant invoices.

Method of Procurement

- Competitive procurement (RFP) under [EdgeMarket](#)
